***JTL Expands Non-Ferrous Portfolio with Launch of CC Copper;
Production Set to Double and Ramp Up to 500 MT/Month by Q4***

Chandigarh, 17th October 2025: JTL Industries Limited ("JTL" or "The Company"), is a fast-growing dynamic steel tube manufacturing company which specializes in producing ERW Black Pipes, Pre- Galvanized and Galvanized Steel Pipes, large diameter tubes and pipes, and hollow structure.

JTL Industries is pleased to announce the introduction of **CC Copper (Continuous Cast Copper)** as a new SKU, marking a significant advancement in its non-ferrous product lineup.

Until now, the company's operations have been focused on **brass production**, with an output of approximately **100 metric tonnes per month**. With the launch of **CC Copper**, total monthly production is set to **double to around 200 metric tonnes**, strengthening JTL's position in the non-ferrous segment.

JTL's existing brass products, manufactured at **18 mm thickness** and further processed down to **as low as 0.04 mm**, have been successfully serving diverse industrial applications. With **CC Copper**, the company will now achieve a **thickness of 0.08 mm**, enabling **superior electrical and thermal performance**.

This expansion unlocks new opportunities across high-growth sectors such as:

- **Electric Vehicles (EVs):** Used in battery connectors, busbars, and motor windings where high conductivity and precision are essential.
- **Renewable Energy:** Applied in solar panels, inverters, and wind turbine components that require efficient power transfer.
- **Infrastructure & Power Distribution:** Used for wiring, switchgear, and earthing applications supporting large-scale electrification and grid modernization.

The company's near-term objective is to **ramp up total production to 500 metric tonnes per month by the end of Q4**, driven by operational optimization, process improvements, and growing market demand. These products form an integral part of JTL's **value-added portfolio**, reinforcing its strategic focus on **high-margin, technology-driven offerings** catering to **future-ready industries**.

Commenting on the development, the management of JTL Industries stated:

“The launch of CC Copper marks a key milestone in expanding our non-ferrous capabilities. This initiative positions us strongly in high-growth sectors such as electric vehicles and renewable energy, where quality, precision, and performance are critical. As we scale up production, our focus remains on operational excellence and delivering advanced, high-value products that strengthen JTL’s leadership in the non-ferrous space.

About JTL Industries Limited

JTL Industries Limited is amongst the fastest growing steel tube manufacturers, with a Registered office located in Chandigarh. The company has manufacturing facilities in Punjab, Maharashtra, and Chhattisgarh. The cumulative capacity of the company is ~9,36,000 MTPA for pipe manufacturing and ~3,00,000 MTPA for backward integration. The company is a recognized “Three Star Export House”, and its product offering includes GI Pipes, MS Black Pipes, Hollow-sections, and Solar Structures amongst others which cater to diverse industrial and infrastructural applications. All the products are available in hot dip galvanized, pre-galvanized and without coated (MS black) grades.
